Nino’s station clocks

Read each time. Draw a short hour hand and a long minute hand from the center.

Nino the panda is setting the station clocks. Help him show every time correctly!

Example: 9:35

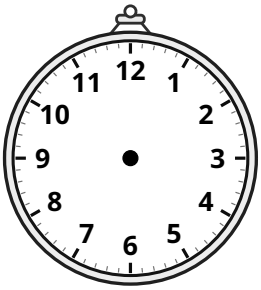

Minute hand on 7: 7 × 5 = 35 minutes.

Hour hand between 9 and 10, just past halfway.

The short hour hand moves between hours.

Your turn: the short hour hand moves as the minutes pass, too.
