PAPILUMO / Pre-K (ages 4–5)

Real-Life 2D Shapes Match with Momo

Draw a line from each of the eight everyday objects to its matching central 2D shape, then write how many objects matched each shape.

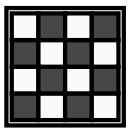

Momo the Squirrel spots 2D shapes everywhere! Match each everyday object to its shape, then count and write the total.

Momo's 4 shapes key

1. Draw a line from each everyday object to its matching circle, square, triangle, or rectangle.

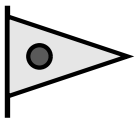

Checkerboard

Round button

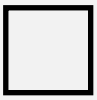

Envelope

Pennant

Circle

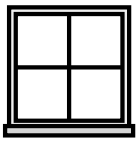

Square

Triangle

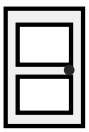

Rectangle

Window

Wall clock

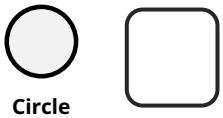

Door

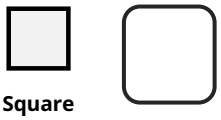

Pizza slice

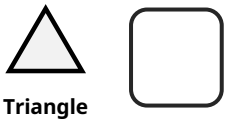

2. Count how many objects matched each shape and write the number in the box.

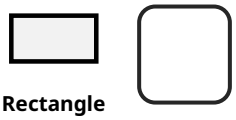

Circle

Square

Triangle

Rectangle

Momo's tip: trace the outside edge of each object first—check for round curves, three corners, four equal sides, or two long sides!
