2D Shape Names & 'Who Am I?' Riddles

Read the word bank, write each shape name on the guided writing line, then solve Zelie's four attribute riddles.

Zelie the detective ferret is investigating 2D shapes! Read every clue carefully and write the exact shape name.

Example: count & name

triangle

Word bank:

triangle

square

circle

diamond

rectangle

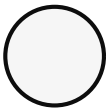

oval

1. Use the word bank to write the exact name of each shape on the guided line:

1

2

3

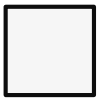

4

5

6

2. Who am I? Read each clue, circle the matching shape, and write its name:

1 I have 4 equal sides and 4 square corners.

2 I have 4 sides: 2 long sides and 2 short sides.

3 I have 3 straight sides and 3 corners.

4 I am completely round with 0 corners.

Zelie's tip: always count the straight sides and check if they are equal in length before choosing a shape name!
