PAPILUMO / 2nd Grade

Graph Paper Pixel Art (10x10 Grids)

Count rows and columns on each left 10x10 model, then copy every black and diagonally hatched square to the right.

Mina grabs her thick art marker! Count each row and column carefully to copy both 10x10 pixel-art designs cell by cell.

Example 4x4: Pixel Heart

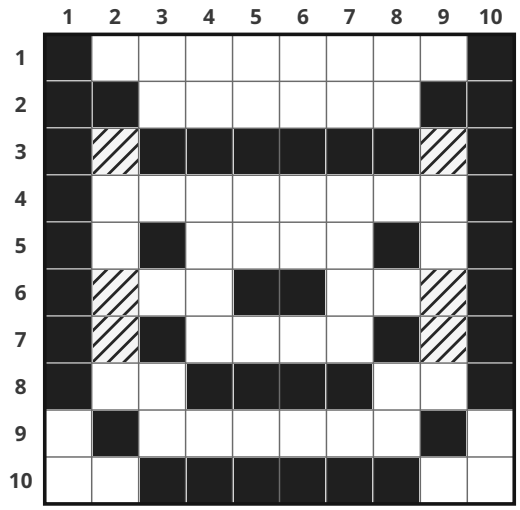

solid black = fill black

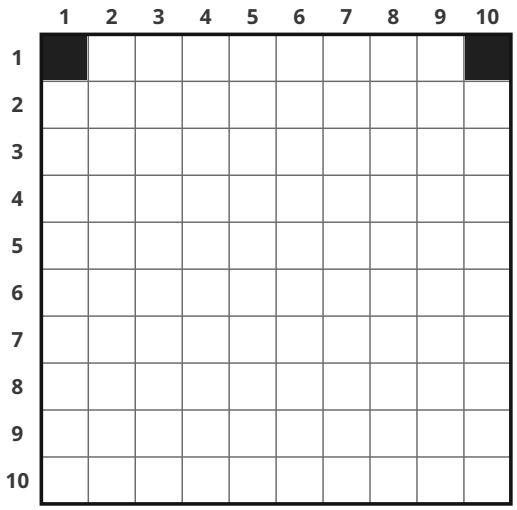

hatched = diagonal stripes

Exercise 1: Smiling Cat Face (10x10 grid — 2 starter ear corners shaded)

MODEL

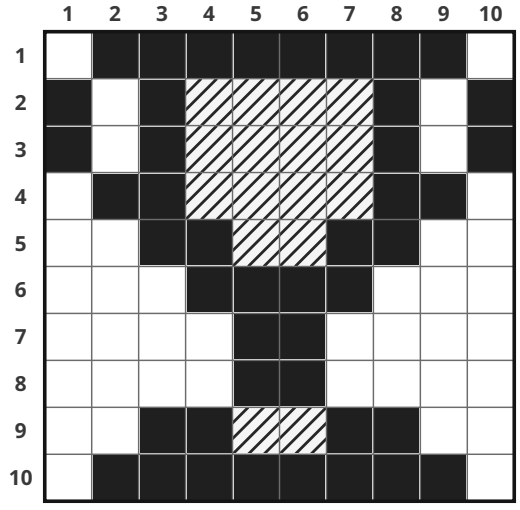

YOUR COPY

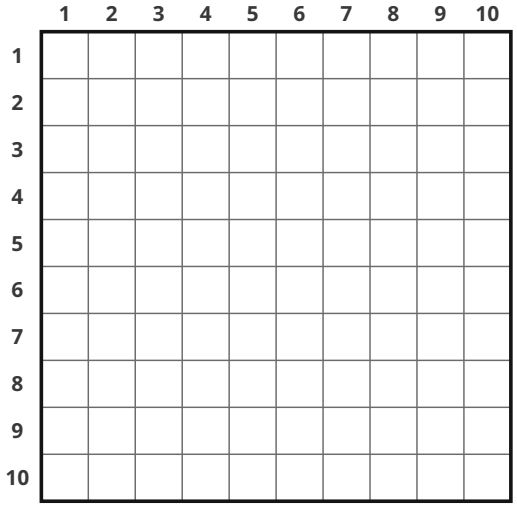

Exercise 2: Winner Trophy Cup (10x10 grid — solid black & diagonal hatch)

MODEL

YOUR COPY

Mina's tip: always check both row number (1–10) and column number (1–10) before shading each square cleanly!
