Le mele nei cestini

Cerchia dieci mele, conta quelle rimaste e scrivi il totale.

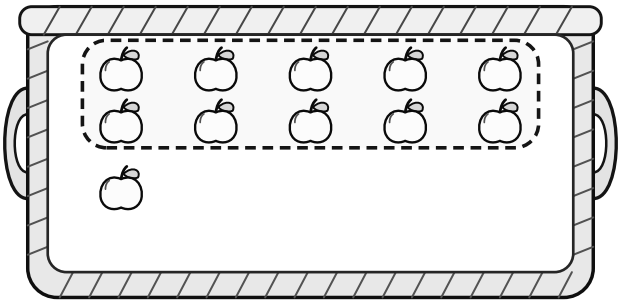

Ciao! Sono Leo, il fruttivendolo del mercato. Aiutami a contare le mele: cerchia prima un gruppo da 10 e poi aggiungi quelle rimaste!

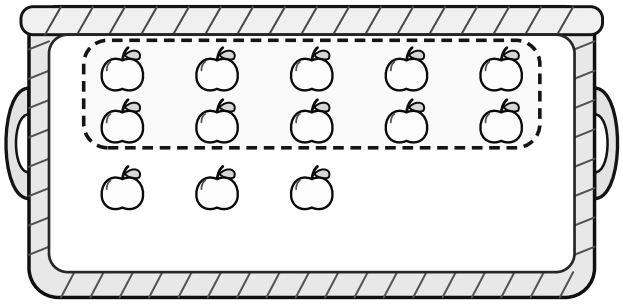

Esempio 10 mele cerchiate + 2 rimaste

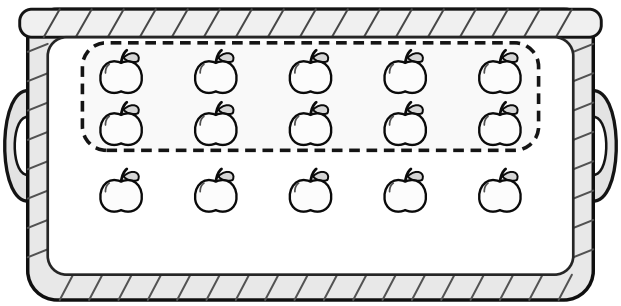

10 + 2 = 12

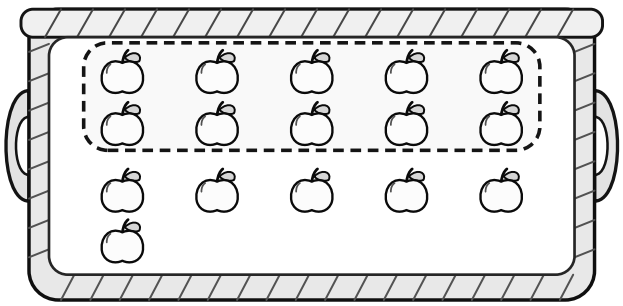

1 Totale: 11

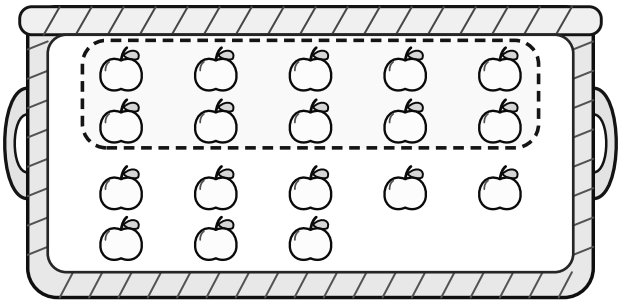

2 Totale: 13

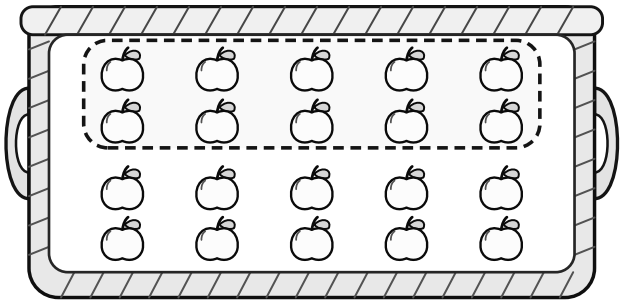

3 Totale: 15

4 Totale: 16

5 Totale: 18

6 Totale: 20

● **Consiglio:** Cerchia subito due file da 5 mele per fare 10, poi continua a contare le mele rimaste una per una.
