Nome : _____ Data : _____

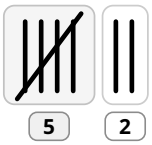

PAPILUMO / Classe prima

Le tacche di conteggio fino a 20

Conta le tacche di ogni registrazione. Scrivi il numero nel riquadro.

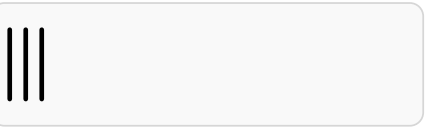

Malo conta i visitatori del parco. Aiutalo a leggere le sue registrazioni!

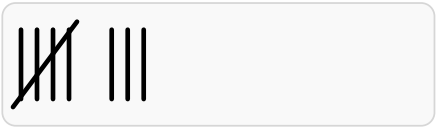

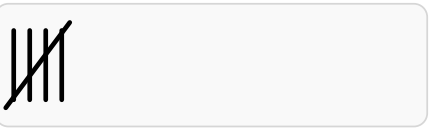

→ **5 + 2 = 7**

Un esempio con Malo:

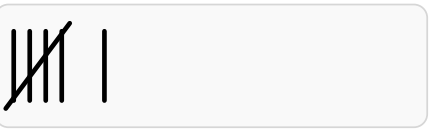

La quinta tacca attraversa le prime quattro. Un gruppo completo vale 5.

1 

2 

3 

4 

5 

6 

7 

8 

9 

10 

11 

12 

Conta i gruppi di cinque, poi aggiungi le tacche rimaste.

Una tacca obliqua conta come una, proprio come ogni tacca verticale.
