Nome : _____ Data : _____

PAPILUMO / Classe prima (6–7 anni)

Addizioni sulla linea dei numeri fino a 10

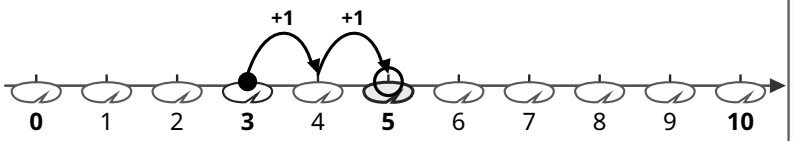

Parti dal punto nero. Disegna i salti verso destra e scrivi il risultato.

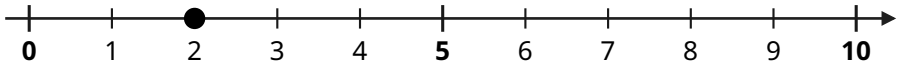

«Cra! Sono Koko la ranocchia dello stagno. Aiutami a saltare di ninfea in ninfea fino al risultato!»

Esempio: parti da 3 e fai 2 salti.

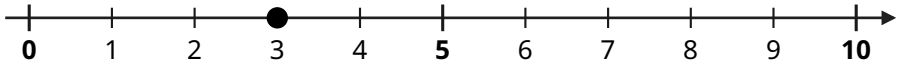

3 + 2 = **5**

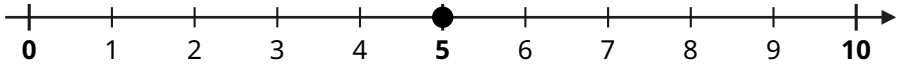

1 **2 + 1 =** ☐

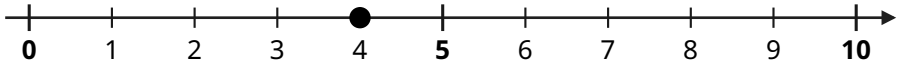

2 **3 + 3 =** ☐

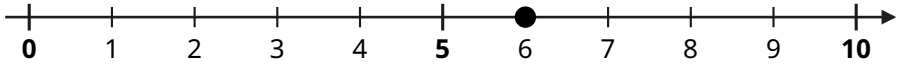

3 **5 + 2 =** ☐

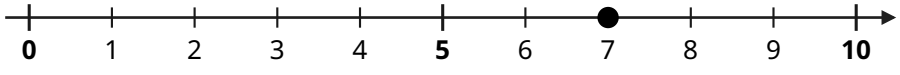

4 **4 + 4 =** ☐

5 **6 + 3 =** ☐

6 **7 + 3 =** ☐

Consiglio: il punto nero è la partenza — non contarlo come un salto; conta ogni arco verso destra!
