Nome : _____ Data : _____

PAPILUMO **Classe seconda**

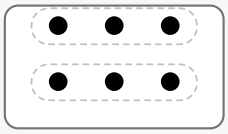

L’orto di Mina: due modi per contare

Osserva i puntini. Completa le due moltiplicazioni per ogni disegno.

Mina la talpa giardiniera conta i suoi semi per righe e per colonne.

Esempio: gli stessi sei semi

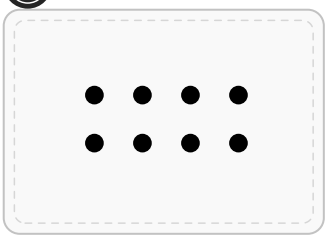

3 + 3 = 6

2 + 2 + 2 = 6

2 × 3 = 3 × 2 = 6

Cambiano i gruppi, ma il totale rimane uguale.

1

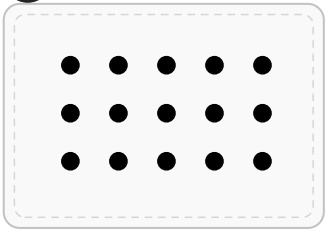

Per righe

4 + 4 ☐ × ☐ = ☐

Per colonne

2 + 2 + 2 + 2 ☐ × ☐ = ☐

2

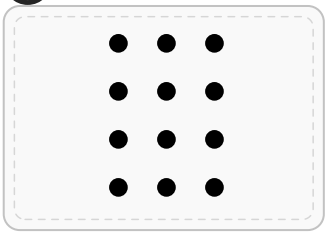

Per righe

5 + 5 + 5 ☐ × ☐ = ☐

Per colonne

3 + 3 + 3 + 3 + 3 ☐ × ☐ = ☐

3

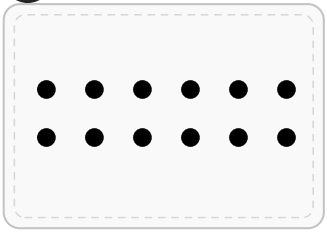

Per righe

3 + 3 + 3 + 3 ☐ × ☐ = ☐

Per colonne

4 + 4 + 4 ☐ × ☐ = ☐

4

Per righe

6 + 6 ☐ × ☐ = ☐

Per colonne

2 + 2 + 2 + 2 + 2 + 2 ☐ × ☐ = ☐

I segni + mostrano i gruppi. Gli occhi di Mina non sono semi!
