Nome : _____ Data : _____

PAPILUMO / Classe prima (6–7 anni)

Sottrazioni sulla linea dei numeri fino a 10

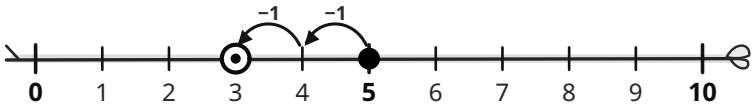

Parti dal punto nero. Disegna i salti verso sinistra e scrivi il risultato.

«Ciao, sono Tito la cavalletta! Parto dal punto nero e salto verso sinistra sul mio rametto per sottrarre.»

Esempio: parti da 5 e fai 2 salti indietro.

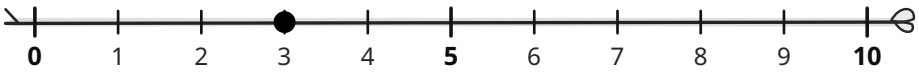

5 - 2 = **3**

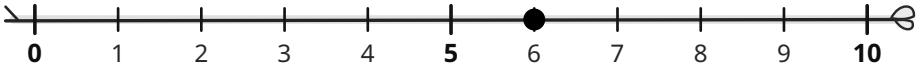

2 salti indietro dal 5: Tito arriva sul 3.

1. Risolvi tutte e sei le sottrazioni sui rametti di Tito:

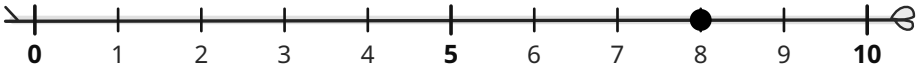

1. **3 - 1 =** _____

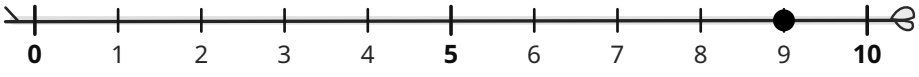

2. **6 - 2 =** _____

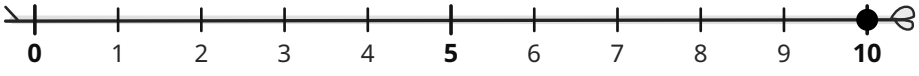

3. **8 - 3 =** _____

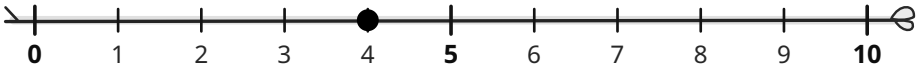

4. **9 - 4 =** _____

5. **10 - 6 =** _____

6. **4 - 4 =** _____

Consiglio di Tito: conta ogni salto verso sinistra senza contare il punto di partenza e fermati dopo i salti richiesti.
