Maçãs nos cestos

Rodeia dez maçãs, conta as que restam e escreve o total.

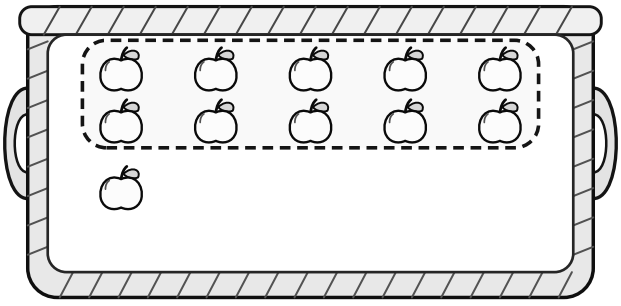

Olá! Sou o Leo, o merceeiro do mercado. Ajuda-me a contar as maçãs: rodeia primeiro um grupo de 10 e junta as que restam!

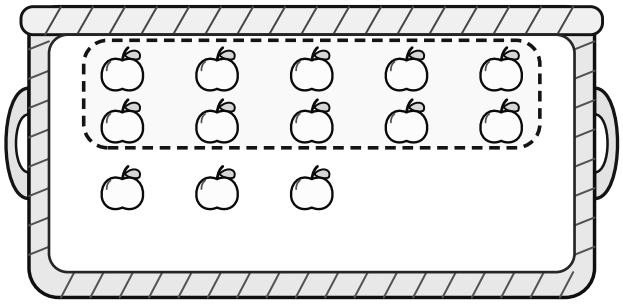

Exemplo 10 maçãs rodeadas + 2 que restam

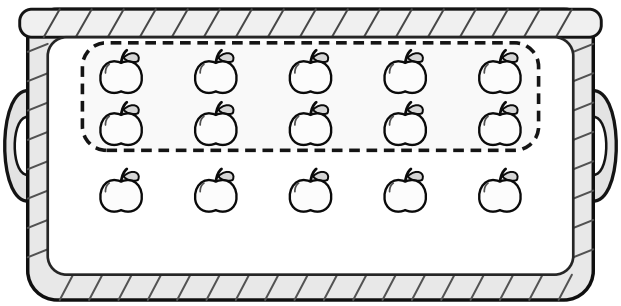

10 + 2 = 12

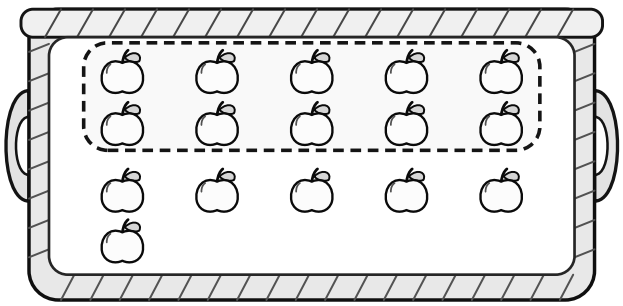

1 Total: 11

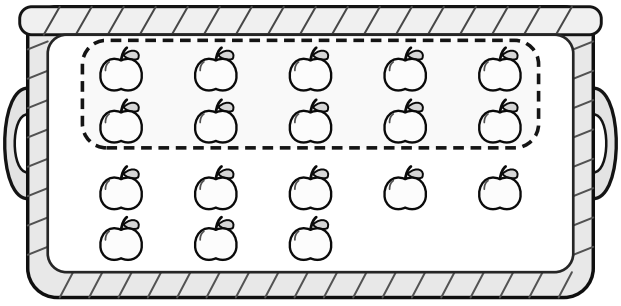

2 Total: 13

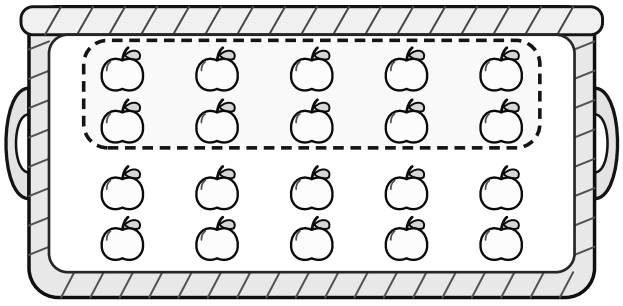

3 Total: 15

4 Total: 16

5 Total: 18

6 Total: 20

● Dica: Rodeia duas filas de 5 maçãs para formar 10 depressa e depois conta as restantes uma a uma.
